Past performance does not guarantee future returns. The historical performance is meant to show changes in market trends across the top twelve emerging market countries in the MSCI Emerging Markets Index over the past fifteen years. Returns represent total annual returns (reinvestment of all distributions) in U.S. dollars and does not include fees and expenses. The investments you choose should reflect your financial goals and risk tolerance. For assistance, talk to a financial professional. All data are as of 12/31/16.
